PROJECTS

JAWLAH – Tourism Booking Platform **Jul. 2026 – Sep. 2026**
- Developed a tourism booking platform using PHP, MySQL, JavaScript, HTML5, and CSS3.
- Built a multi-step booking system with availability management and automatic price calculation.
- Created an admin dashboard to manage bookings, activities, packages, and customer messages.
- Implemented MVC architecture using OOP PHP and PDO, with data validation and email notifications.

Personal Portfolio Website **Oct. 2026 – Nov. 2026**
- Developed a responsive personal portfolio using React.js, Tailwind CSS, and Framer Motion.
- Designed a modern UI/UX with smooth animations, interactive elements, and reusable React components.
- Focused on clean code, maintainability, scalability, and high-performance user experience.
